

McIntyre

The gold standard in recycling systems

600 HD

Alligator Shear

McIntyre 600 HD Shear

A fast and strong shear with an extended blade and hold down clamp, making it ideal for every cutting and cleaning task including car radiators

Extended blade

Built at the request of customers looking for a shear with a longer blade to handle larger items such as car radiators, the 600 HD offers more cutting area at less cost. The 600 HD will cut through radiators, for example, in one pass, speeding up processing and improving safety for the operator.

Why is this the best for you?

- More cutting area
- less cost
- speeds up processing
- improves safety

Technical Data

Machine dimensions:	1754 x 912 x 1530mm
Blade Length:	608mm / 24"
Tip to tip opening:	302mm / 11.9"
Shearing height:	978mm / 38.5"
Weight with oil:	1260kg
Oil capacity:	280 Litres / 62 Gallon
Noise Level:	78 +/- 3 dBA
Cut control:	Single Cut repeating
Standard Electrical Requirements:	32A / 3ph / 380-415v / 50Hz
Power Rating:	7.5 kW / 10hp
Motor speed:	1460 rpm
Max system Pressure:	241 Bar / 3500 psi
Max Shear force:	100 Tonnes
Fully open cut speed:	15 dry cycle cuts per min
40% Stroke cut speed:	46 dry cycle cuts per min
Cutting Capacity:	63mm (2.5") (Round Bar) 50mm (2") (Square Bar)

Round Bar

Square Bar

About McIntyre Recycling Systems & Services

McIntyre is the gold standard in recycling systems and services, with 27,000 machines installed worldwide and a reputation for the widest and best-performing range of solutions for metal, waste, cars and aluminium. With scrap metal roots extending back to 1872, we have an unrivalled understanding of the challenges faced by scrap merchants, waste managers, car breakers, manufacturers, foundry managers and others with recycling responsibilities. As a result, the McIntyre name has become synonymous with innovative, problem-solving designs, robust products that deliver the best return on investment, and a knowledgeable, friendly and helpful service
