COMPACT 220T XL

Il **Compact 220T Special / Compact 220T XL** è un impianto tecnologico completo per il recupero del rame e dell'alluminio da cavo elettrico ed altri scarti differenziati. Utilizzando la tecnologia della separazione ad aria, a seguito delle fasi di macinazione ed impallinamento, è possibile ottenere una purezza del materiale recuperato pari al 99.9%.

Il **Compact 220T Special / Compact 220T XL** può essere fornito anche con Nastro di Carico accessorizzato e completo rullo magnetico e Trituratore Tritronic.

*The **Compact 220T Special / Compact 220T XL** is a complete technological system for copper and aluminium recovery from electric cables and other waste materials. 99.9% of clean recovered material can be achieved using the technology of the air separation after the grinding and pulverizing process.*

*The **Compact 220T Special / Compact 220T XL** is supplied also with accessorized Conveyor with magnet roller and Tritronic Shredder.*

TECHNICAL DATA / DATI TECNICI

Power / Potenza

Compact 220T Special: 36 kW
Compact 220T XL: 40 kW

Approx. Production / Produzione indicativa

Compact 220T Special: 200 / 400 Kg/h
Compact 220T XL: 300 / 500 Kg/h

Dimensions / Dimensioni

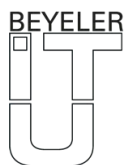

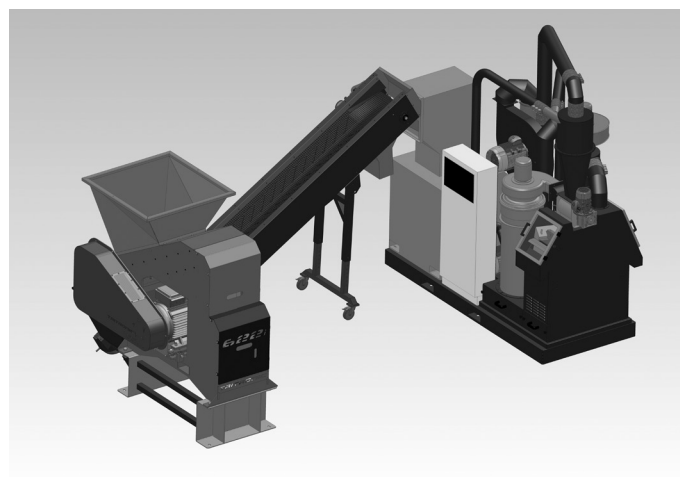

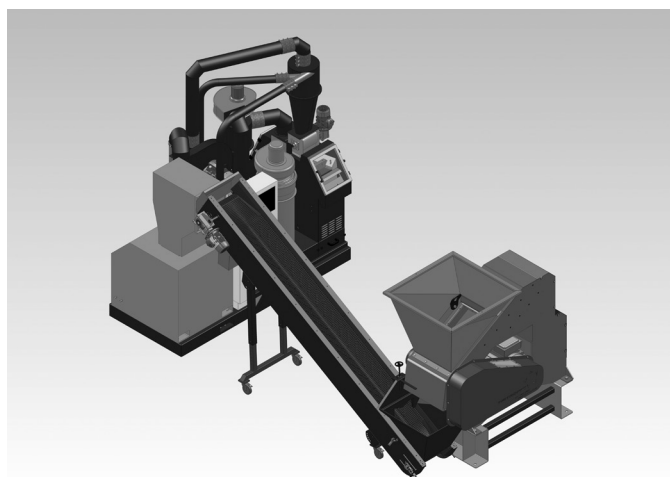

Compact 220T Special: 2900x1400x3000 (H) mm
Compact 220T XL: 2900x1400x3000 (H) mm

Weight / Peso

Compact 220T Special: 2285 Kg
Compact 220T XL: 2350 Kg
